EXPERIENCE

Team Lead (Front-End)

nebenan.de, Berlin, September 2015 – Present

Migrated existing MVP from Angular to React. Developed the main website and designed architecture for other company websites to build upon. Developed various microservices for image processing, machine learning, etc. Recruited and lead a team of front-end engineers. Helped with product planning and feature scoping.

Lead Software Engineer

swiftgift.me, London, October 2014 – September 2015

Recruited and managed a remote team of engineers and designers. Worked on product planning, roadmap and specs. Helped migrating from Magento to a custom Node.js backend. Developed architecture for a REST API, Admin panel and the main website.

Senior Software Engineer

moviepilot.com, Berlin, June 2013 – October 2014

Worked on adding new features, improving performance and refactoring the main website. Managed tasks for a team of front-end engineers.

Software Engineer

ostrovok.ru, Moscow, May 2011 – June 2013

Joined the front-end team to work on the main website and various experimental projects. Developed a mobile version of the website.

Freelance Software Engineer

braincube.ru, Moscow, November 2007 – December 2012

Gathered a group of freelance designers and software engineers to work on various projects. Acted as a project manager, team lead, web designer and software engineer. Founded a gaming website where worked as a game developer, community manager and server administrator.

EDUCATION

Bachelor, Telecommunications Engineering

Moscow Technical University of Communications and Informatics
September 2006 – April 2012

Bachelor, Computer Science

Moscow Institute of International Social and Humanitarian Relations
January 2007 – June 2011
